FLOOR-MOUNTED TUBE STAND

The ideal choice for a complete range of routine radiographic procedures. The TITAN FMT requires only a low profile, floor-mounted rail for support which eliminates the need for costly structural modifications.

- Cost Effective
- Extensive, Smooth Longitudinal and Transverse Travel
- Complete Radiographic Coverage

The TITAN FMT allows you the flexibility to get exactly what you need in your private practice facility or outpatient clinic.

The TITAN Family of Digital Radiographic Imaging Systems
